#### **SUPPLEMENTARY INFORMATION:**

On February 19, 2013 (78 FR 11583), EPA proposed to approve Tennessee's September 3, 1999, SIP submission to change rule 1200-3-9-.01 to add a total of 17 compounds to the list of compounds excluded from the definition of VOC to be consistent with EPA's definition of VOC at 40 CFR 51.100(s). The SIP submittal was in response to EPA's revision to the definition of VOC, (at 40 CFR 51.100(s)) published in the Federal Register on August 25, 1997 (62 FR 44900) and April 9, 1998 (63 FR 17331). These compounds were added to the exclusion list for VOC on the basis that they have a negligible effect on tropospheric ozone formation. In the direct final rule, EPA stated that if adverse comments were received by March 21, 2013, the rule would be withdrawn and not take effect. On March 21, 2013, EPA received a comment. EPA interprets this comment as adverse and, therefore, EPA is withdrawing the direct final rule. EPA will address the comment in a subsequent final action based upon the proposed rulemaking action, also published on February 19, 2013 (78 FR 11618). EPA will not institute a second comment period on this action.
